

ZTV Note:
Zone of Theoretical Visibility (ZTV) has been generated using Ordnance Survey Terrain 5 digital terrain model, which does not take account of the screening effects of vegetation, buildings or other structures.

ZTV is based upon a 10m grid of points within the Proposed BESS and Proposed Control Building & Substation, at a height of 3m and 15m, respectively, (above a platform of 370m AOD with an observer eye height of 2m).
